- Aug. 2023 - present **Associate Professor and Director**
Aquatic Research and Environmental Assessment Center
Department of Earth and Environmental Sciences, Brooklyn College, Brooklyn NY
As Associate Professor in Earth and Environmental Sciences, I lead a cooperative fisheries science research program working with State, Federal, non-governmental, industry, and academic partners. I integrate quantitative science + ecology + socioeconomic research to advance solutions to aquatic resource management problems spanning from local case studies to seascape scales. I am also the Director of the Aquatic Research and Environmental Assessment Center at Brooklyn College. AREAC is a hands-on experimentation laboratory and a center of innovation for aquatic ecosystem sustainability science. Under my Director role, I lead the strategic vision for AREAC and am responsible for program administration, fiscal management, outreach, and engagement activities.
